**Subject:** Home Place

Jim

I want to let you know I have very serious concerns around all that has transpired with Home Place (and continues to evolve). I have been there since 1999 and lived through this issue with great concern.

I do not trust that the Wright's have our safety, access and ability to rely on those services in mind. You of course know the hydrant for Home Place is located close to the end of the street.

I am waiting for the ball to drop and for them to extort money somehow as a result of this latest turn of events. I think it goes without saying that the fence movement, fence building and signage are clear indicators as to what is to come.

Please help us resolve this issue. We received a commitment from council that we would not be left behind on this issue. I expect that commitment to be fulfilled. We all have a very large investment in this issue and it needs to be finished once and for all.

Thanks

Paul
